

We are searching, with immediate effect, for highly motivated and technically competent

## Penetration Tester Red Teamer Security Researcher

Our Red Teams conduct comprehensive Penetration Tests for international organizations: real attack scenarios, minimum restrictions in approach, less automation and the search and exploitation of 0Day Vulnerabilities - these are some of the indications of our approach. From indirect Reconnaissance on covert proceedings to Post Exploitation and Lateral Movement, we identify complete attack paths.

What's important to us:

- Practical experience in complex Penetration tests
- Passion for work
- High willingness to learn
- The ability to apply the latest attack techniques and to develop yourself
- Interest and participation in the international security scene
- Excellent teamwork skills

In return, we offer:

- Collaboration atmosphere to work and learn
- Minimum travelling
- Dedicated research time
- Opportunity to actively shape an emerging organization
- Exciting projects with engaged customers
- Individual technical equipment
- All inclusive: good coffee, fine food, healthy snacks and massages

If interested, we look forward to a compelling application and a personal interview. Contact us: [jobs@code-white.com](mailto:jobs@code-white.com)
